

## **SpySkyTech Participates in the Internationalization Mission at GITEX Expand North Star 2024 in Dubai**

São Paulo, 13/09/2024 – **SpySkyTech, a Brazilian technology company, is proud to announce its participation in the Internationalization Mission at \*\*GITEX Expand North Star 2024**, one of the world's largest technology and innovation events, to be held in Dubai, United Arab Emirates, from October 10th to 16th, 2024.

Selected by **ApexBrasil** after a rigorous public selection process, SpySkyTech joins an exclusive group of Brazilian companies representing the country in seeking new opportunities for expansion and international partnerships in the technology market. The event, fully funded for participating companies, offers a unique platform to promote innovative solutions, establish strategic contacts, and explore new markets.

In addition to attending GITEX, SpySkyTech will compete in the **Supernova Challenge Pitch Competition**, one of the most prestigious pitch competitions at the event, bringing together startups worldwide to present their disruptive solutions to a panel of investors and industry experts. This competition provides a strategic opportunity to showcase the unique value of our technologies and open doors to global partnerships and investments.

SpySkyTech's participation in **GITEX Expand North Star 2024** marks an important milestone for the company as it seeks to expand its global presence and demonstrate the transformative power of its artificial intelligence and autonomous monitoring solutions on an international level. During the event, SpySkyTech will have the opportunity to conduct virtual meetings with potential partners and participate in pitch training with specialized consultants, services offered as part of the benefits of the internationalization mission.

### **About SpySkyTech**

SpySkyTech is a company focused on artificial intelligence and autonomous monitoring technology solutions that transform cameras, drones, and mobile devices into intelligent observers, applicable in various sectors such as public security, highways, and large area management. Committed to innovation and sustainability, SpySkyTech continuously seeks to expand its operations and contribute to a safer and more connected future.

### **About GITEX Expand North Star 2024**

GITEX Expand North Star 2024 is one of the world's largest technology fairs, bringing together industry leaders, innovators, startups, and investors to explore emerging trends, discuss technological solutions, and foster international collaboration. The event provides a dynamic environment for companies looking to accelerate their growth in the global market.

SpySkyTech thanks ApexBrasil for this opportunity and is ready to represent Brazil at this important technology event. Participation in GITEX Expand North Star 2024 and the Supernova Challenge Pitch Competition reinforces the company's commitment to innovation and the pursuit of strategic partnerships to transform the future of technology.
